

Login help

[New curriculum students: Instructions for creating a password, if you have not already done this.](#)

Existing curriculum students...

Your Moodle login information is the same as your MyEdge student email and your WebAdvisor login information. If your old password isn't working, do one of the following: either [reset it with EdgeID](#), try the last six digits of your Social Security Number, or [contact Tech Support](#).

Username:

For curriculum students, your Moodle username is usually your first initial, last name, and first four digits of your date of birth (month and day only). Always use lower case letters for your username. Example: John Smith born May 18, 1977 (5/18/77), the username would be **jsmith0518**

Password:

For curriculum students, your Moodle password is the same as your MyEdge and WebAdvisor password. If your old password isn't working, do one of the following: either [reset it with EdgeID](#), try the last six digits of your Social Security Number, or [contact Tech Support](#).

Continuing Education students...

Your instructor should have notified you about your Moodle login info.
