

Installing the Respondus LockDown Browser Using *Firefox*

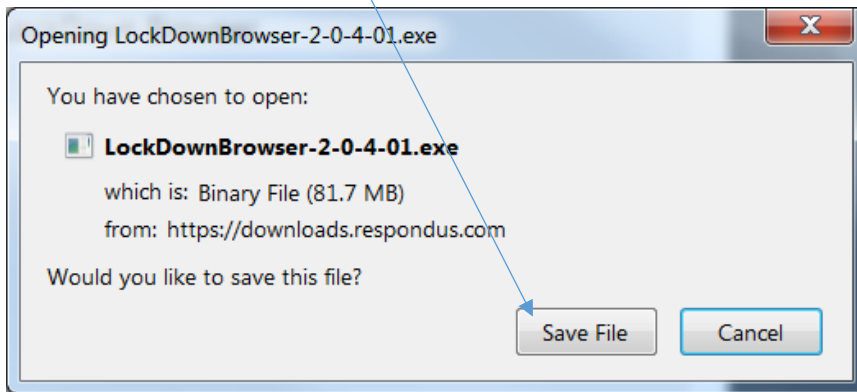

(The following illustration uses the **Firefox** browser.)

1. [Click this link https://www.respondus.com/lockdown/download4.php?id=123840121](https://www.respondus.com/lockdown/download4.php?id=123840121)

2. Click the “**Install Now**” button on the screen

3. Click the “**Save File**” button in the small window that appears.

4. In the upper right hand corner area of the Firefox browser window, click the “Downloads” button. It looks like this 

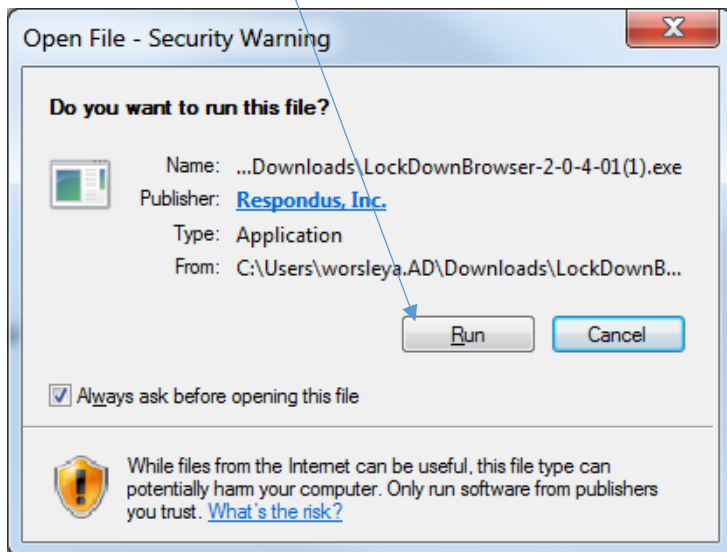

“Downloads” button is here

5. In the list of items that drops down, click the one that says “**LockDownBrowser.**” This will open the downloaded file.

6. Click the “**Run**” button in the small window that appears.

7. Click the “**Next >**” button to choose English as the setup language and begin the installation.

8. Click the circle beside “I accept the terms of the license agreement,” and then click “**Next >**”

9. After the installer completes, click the “**Finish**” button that appears.

Now view your computer desktop. There should be an icon on it that looks something like this.
